

# Halloween Activities

By Emily Walker

The TYs celebrated the spooky season by creating amazing scarecrows and carving pumpkins, The level of creativity and craftsmanship was truly impressive.

Everyone brought their own supplies for scarecrow making including straw, old clothes, and other props. Each scarecrow had its own unique personality, with colourful outfits and funny faces.

The pumpkins were carved with intricate designs, from spooky faces to artistic patterns. They really outdid themselves showing off their talents as well as having a blast!

It was incredible to see the hard work and imagination put into these creations. The TYs definitely brought the Halloween spirit to life!
