

On the 30th of November, the transition year students were lucky enough to take part in Think Languages. Think Languages is a wonderful opportunity to learn about different languages and cultures around the world. This day was organized and run by a committee made up of nineteen transition year students. The transition years started the day with a breakfast where they had croissants, pain au chocolat and donuts after the breakfast they all took part in a language Kahoot. Then they watched a video sent by Think Languages which outlined the importance of language and how it can benefit you in your career. Throughout the day the transition years took part in pizza making, tango, Ikebana, Calligraphy, sign language as well as learning about Morocco, Syria, and Arabic. They also learned about Ukrainian, Sinhalese and took part in Gaspacio making and Jujitsu. It is safe to say that this year's Think Languages was a roaring success with a high mark for next year's transition years to reach.
