Introductory Statement

The school's Data Protection Policy applies to the personal data held on behalf of the school which is protected by the General Data Protection Regulation 2016/679.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians and applicants for staff positions within the school) insofar as the measures under the policy relate to them. Data will be stored securely, so that confidential information is protected in compliance with relevant legislation. This policy sets out the manner in which personal data and sensitive personal data will be protected by the school.

Data Protection Principles

The school is a data controller of personal data relating to its past, present and future staff, students, parents/guardians and other members of the school community. As such, the school is obliged to comply with the principles of data protection set out in the General Data Protection Regulation 2016/679 which can be summarised as follows:

- Obtain and process Personal Data **fairly, lawfully and in a transparent** manner: Information on students is gathered with the help of parents/guardians and staff. Information is also transferred from their previous schools. In relation to information the school holds on other individuals (members of staff, individuals applying for positions within the School, parents/guardians of students etc.), the information is generally furnished by the individuals themselves with full and informed consent and compiled during the course of their employment or contact with the School. All such data is treated in accordance with Data Protection Law and the terms of this Data Protection Policy. The information will be obtained and processed fairly.
- Collected for one or more **specified, explicit and legitimate purposes**: The school informs individuals of the reasons they collect their data and will inform individuals of the uses to which their data will be put. All information is kept with the best interest of the individual in mind at all times.
- Process it only in ways **compatible with the purposes for which it was given** initially: Data relating to individuals will only be processed in a manner consistent with the purposes for which it was gathered. Information will only be disclosed on a need to know basis, and access to it will be strictly controlled.
- Ensure that it is **adequate, relevant and limited to what is necessary**: Only the necessary amount of information required to provide an adequate service will be gathered and stored.
- Keep Personal Data **accurate**, complete and up-to-date: Students, parents/guardians, and/or staff should inform the school of any change which the school should make to their personal data and/or sensitive personal data to ensure that the individual's data is accurate, complete and up-to-date. Once informed, the school will make all necessary changes to the relevant records. The Principal may delegate such updates/amendments to another member of staff. However, records must not be altered or destroyed without proper authorisation. If alteration/correction is required, then a note of the fact of such authorisation and the alteration(s) to be made to any original record/documentation will be dated and signed by the person making that change.

- Keep in a form which **permits identification of data subjects for no longer than is necessary** for the purposes for which the personal data are processed: As general rule, the information will be kept for the duration of the individual's time in the school. Thereafter, the school will comply with DES guidelines on the storage of Personal Data and Sensitive Personal Data relating to a student. In the case of members of staff, the school will comply with both DES guidelines and the requirements of the Revenue Commissioners with regard to the retention of records relating to employees. The school may also retain the data relating to an individual for a longer length of time for the purposes of complying with relevant provisions of law and or/defending a claim under employment legislation and/or contract and/or civil law. The school may also retain the data for archiving purposes to accurately record the history of the school.
- Keep Personal Data **safe and secure**: Only those with a genuine reason for doing so may gain access to the information. Sensitive Personal Data is securely stored under lock and key in the case of manual records and protected with software and password protection in the case of electronically stored data. Portable devices storing personal data (such as laptops) will be encrypted and password protected before they are removed from the school premises. Confidential information will be stored securely and in relevant circumstances, it will be placed in a separate file which can easily be removed if access to general records is granted to anyone not entitled to see the confidential data.

Scope

Purpose of the Policy: The General Data Protection Regulation 2016/679 apply to the keeping and processing of Personal Data, both in manual and electronic form. The purpose of this policy is to assist the school to meet its statutory obligations, to explain those obligations to School staff, and to inform staff, students and their parents/guardians how their data will be treated.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians, and applicants for staff positions within the school) insofar as the school handles or processes their Personal Data in the course of their dealings with the school.

Definition of Data Protection Terms

In order to properly understand the school's obligations, there are some key terms which should be understood by all relevant school staff:

Data means information in a form that can be processed. It includes both automated data (e.g. electronic data) and manual data. Automated data means any information on computer, or information recorded with the intention that it be processed by computer. Manual data means information that is kept/recorded as part of a relevant filing system or with the intention that it form part of a relevant filing system.

Relevant filing system means any set of information that, while not computerised, is structured by reference to individuals or by reference to criteria relating to individuals, so that specific information relating to a particular individual is readily, quickly and easily accessible.

Personal Data means data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the Data Controller i.e. the school.

Sensitive Personal Data refers to Personal Data regarding a person's

- racial or ethnic origin
- political opinions
- religious or philosophical beliefs
- trade union membership
- genetic data
- biometric data
- health data
- data concerning a natural person's sex life or sexual orientation

The Data Controller for the purpose of this policy is the Board of Management, Loreto Secondary School, Wexford.

Processing: means any operation or set of operations which is performed on personal data or on sets of personal data.

Consent: means any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

Rationale

In addition to its legal obligations under the broad remit of educational legislation, the school has a legal responsibility to comply with the General Data Protection Regulation 2016/679.

This policy explains what sort of data is collected, why it is collected, for how long it will be stored and with whom it will be shared. As more and more data is generated electronically and as technological advances enable the easy distribution and retention of this data, the challenge of meeting the school's legal responsibilities has increased.

The school takes its responsibilities under data protection law very seriously and wishes to put in place safe practices to safeguard individual's personal data. It is also recognised that recording factual information accurately and storing it safely facilitates an evaluation of the information, enabling the principal and board of management to make decisions in respect of the efficient running of the school. The efficient handling of data is also essential to ensure that there is consistency and continuity where there are changes of personnel within the school and board of management.

Other Legal Obligations

Implementation of this policy takes into account the school's other legal obligations and responsibilities. Some of these are directly relevant to data protection. For example:

- Under Section 9(g) of the Education Act, 1998, the parents of a student, or a student who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the student in their education

- Under Section 20 of the Education (Welfare) Act, 2000, the school must maintain a register of all students attending the School
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a student is transferring
- Under Section 21 of the Education (Welfare) Act, 2000, the school must record the attendance or non-attendance of students registered at the school on each school day
- Under Section 28 of the Education (Welfare) Act, 2000, the school may supply Personal Data kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the school is satisfied that it will be used for a "relevant purpose" (which includes recording a person's educational or training history or monitoring their educational or training progress in order to ascertain how best they may be assisted in availing of educational or training opportunities or in developing their educational potential; or for carrying out research into examinations, participation in education and the general effectiveness of education or training)
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers ("SENOs")) such information as the Council may from time to time reasonably request
- The Freedom of Information Act 1997 provides a qualified right to access to information held by public bodies which does not necessarily have to be "personal data" as with data protection legislation. While schools are not currently subject to freedom of information legislation, if a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills, etc.) these records could be disclosed if a request is made to that body
- Under Section 26(4) of the Health Act, 1947 a school shall cause all reasonable facilities (including facilities for obtaining names and addresses of pupils attending the school) to be given to a health authority who has served a notice on it of medical inspection, e.g. a dental inspection
- Under Children First: National Guidance for the Protection and Welfare of Children (2011) published by the Department of Children and Youth Affairs, schools, their boards of management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána).

These October Returns will include sensitive personal data regarding personal circumstances which are provided by parents/guardians and students on the basis of explicit and informed consent. The October Return contains individualised data (such as an individual student's PPS number) which acts as an "identifier" for the DES to validate the data that belongs to a recognised student. The DES also transfers some of this data to other government departments and other State bodies to comply with legislation, such as transfers to the Department of Social Protection pursuant to the Social Welfare Acts, transfers to the

State Examinations Commission, transfers to the Educational Research Centre, and transfers to the Central Statistics Office pursuant to the Statistics Acts. The data will also be used by the DES for statistical, policy-making and research purposes. However, the DES advises that it does not use individual data, but rather aggregated data is grouped together for these purposes. The DES has a data protection policy which can be viewed on its website (www.education.ie). The DES has also published a “Fair Processing Notice” to explain how the personal data of students and contained in October Returns is processed. This can also be found on www.education.ie (search for Circular Letter 0047/2010 in the “Circulars” section).

- (b) **Purposes:** The school asks parents/guardians and students to complete October Returns for the purposes of complying with DES requirements to determine staffing and resource allocations and to facilitate the orderly running of the school. The main purpose of the October Returns is for the DES to determine whether the student qualifies for English language support and/or additional resources and support to meet their particular educational needs. The October Returns are submitted to the DES electronically. The DES has their own policy governing the security of the data sent to them by all post-primary schools. The co-operation of each student and/or their parents/guardians in completing the October Return is greatly appreciated as the school’s aim is to ensure that each student is assisted in every way to ensure that s/he meets his/her full potential.
- (c) **Location:** In a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) **Security:** Records are kept in both manual and computer format. Manual files are kept in filing cabinets in locked rooms. Computer data is password protected.
- (e) **Lawful basis for processing:** Legal basis to comply with requirement enforced by the Department of Education.
