

TY Bonding Day

by Sarah Dunne

On the 12th of September all Transition Year students went to Our Lady's Island for a bonding day. The whole year went together, and it was a fantastic opportunity to get closer as a year group.

The first part of the day was centred around individuality. They played games that made each student realise what they could contribute to a team and that everyone's role is important for a team to work.

In the second part of the day, after lunch each student was given a piece of paper with their names on it. The papers were passed around the room and every student was encouraged to write a comment on each sheet. The sheets were filled with comments that were personal and positive. When they were returned to the person, they were given the opportunity to read them. Upon reading the sheets each person realised how valued they were and what their classmates thought of them.

It was an overall amazing day, and it really benefited every Transition Year student.
